ILLUMINATED MIRRORS

Engineering Art & Light.

2026 Professional Collection

BRIDGING DESIGN & MANUFACTURING

Your Premium Bathroom Solution Partner in China

Founded with a vision to elevate the standard of bathroom fixtures, Biliren Technologies is your strategic partner in the supply chain. We bridge the gap between architectural concepts and manufacturing realities. Unlike traditional factories, we speak the language of design while enforcing the discipline of engineering.

01. DESIGN ENGINEERING: We transform your concepts into reality. Our team provides professional **CAD drawings, 3D renderings, and structural optimization** to ensure every mirror and cabinet is not just visually stunning, but strictly manufacturable.

02. COMPLIANCE & SAFETY: Safety is non-negotiable. Our products are rigorously tested to meet **top standards (ETL/UL/FCC)**. We strictly adhere to IP ratings and electrical safety codes suitable for damp environments.

03. SUPPLY CHAIN CONTROL: We act as your on-ground guardian. From raw material sourcing (copper-free mirrors, LED drivers) to **AQL 2.5 final inspections**, we ensure consistency across every batch, minimizing your risk in cross-border procurement.

PROJECT SUPPORT SERVICES

RAPID VISUALIZATION & SHOP DRAWINGS

Professional CAD drawings and realistic renderings to accelerate design approval and help win bids faster.

BESPOKE CUSTOMIZATION

Tailored solutions for dimensions, shapes, finishes, and LED functions to meet specific project requirements.

48-HOUR PRIORITY RESPONSE

Guaranteed preliminary feedback on quotes, proposals, or technical queries within two business days.

PREMIUM BUILD QUALITY

Brushed Aluminum Frame

5mm Copper-Free Silver Glass

High CRI 90+ LED Strip

Shatter-Proof Backing

SMART FUNCTIONALITY & OPTIONS

TOUCH SENSOR CONTROL
(Memory Function)

ANTI-FOG TECHNOLOGY
(Independent / Linked)

**3-COLOR CCT
ADJUSTABLE**

10%-100%
**FULL-RANGE
DIMMING**

EFFICIENT QUICK-LOCK SYSTEM

The 3-Step "Quick-Lock" Installation System

01. ZERO MEASURING HEADACHES

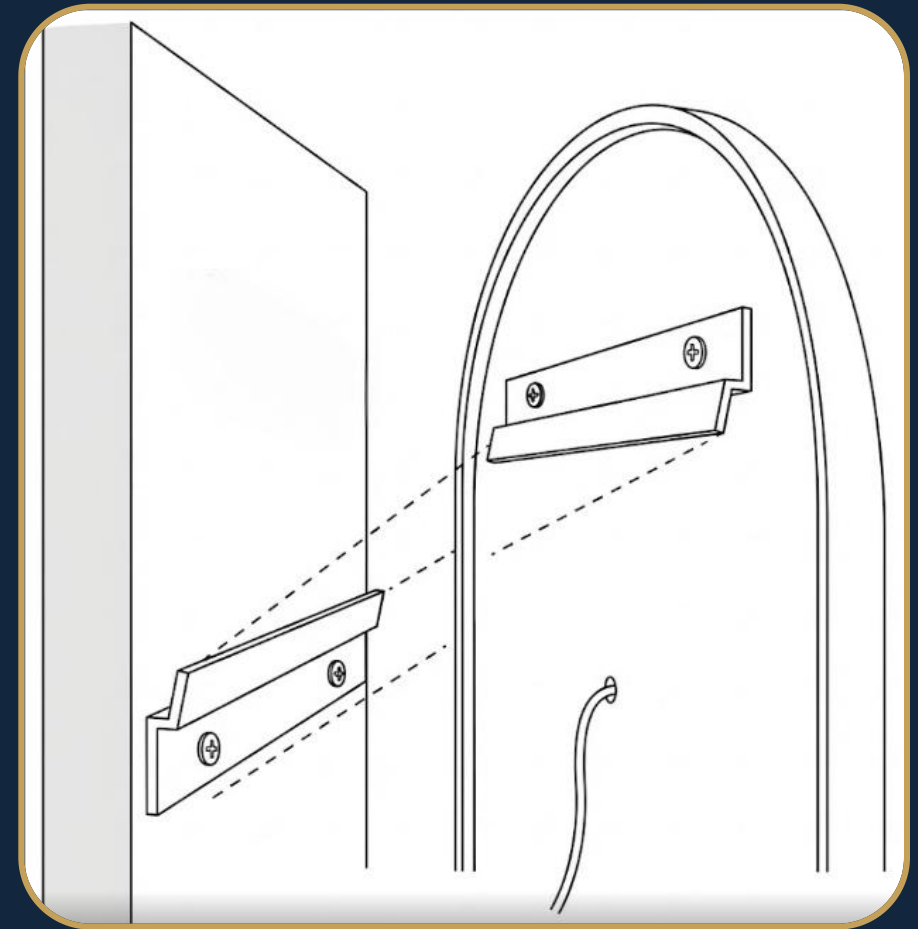

Stop measuring center-to-center holes. Just level the single wall bar, drive the screws, and you're done.

02. AUTO-LEVELING DESIGN

The continuous Z-bar bracket ensures the mirror hangs perfectly straight and flush against the wall. No more crooked mirrors.

03. SECURE INTERLOCK

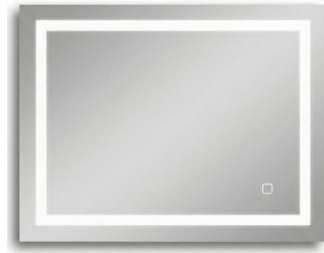

Heavy-duty aluminum profiles lock together instantly. Supports up to 50kg (110lbs) with zero risk of slipping or vibration.
